

UNITED STATES TO PUT DOWN THE REVOLUTION

Continued From Page One.

withdrawn until conditions in Mexico are much more stable than they now are believed to be.

Situation in Lower California.

"The situation in Lower California is said to have caused more concern to the United States than at any other point. It was reported that the revolutionists were exceptionally strong there, and threatened to set up a government independent either of that of Diaz or of the revolutionists to the east. The line between the United States and Lower California is but an arbitrary one, and a revolutionary government there would be a source of constant worry."

LIMANTOUR OPTIMISTIC.

Finance Minister Receives Many Callers at Hotel in New York.

NEW YORK, March 9.—Senator Jose Limantour, the Mexican minister of finance, continued his conference on the Mexican situation at his hotel here today, and maintained a cheerful optimism that he saw no untoward events foreshadowed in the rush of United States troops to the border.

Among those who called upon Senator Limantour today were J. P. Morgan, Jr., P. B. Bennett, vice president of the National Railway of Mexico, Bradley Webster Palmer, counsel for the National Railway of Mexico, Cecil Grenfell, a member of the British Legation, Jacob H. Schiff, the banker, and George Nordholt, a mining engineer and friend of Vice President Barron Corral of Mexico. Senator Limantour probably will leave within a few days. Now that President Diaz has gone south, it is expected that Senator Limantour will not hold a conference with him, as had been expected.

FRANCE IS CONCERNED.

People of That Country Said to Have \$100,000,000 Invested in Mexico.

PARIS, March 9.—The officials of the foreign office today informed the Associated Press that the French government had made no representations to the United States regarding the protection of French interests in Mexico. News of the American action was received with extraordinary interest by the foreign office, where, in the absence of special advisers from Washington on the subject, it is assumed that the reasons for the step taken were wholly sufficient.

Local financial interests are somewhat concerned regarding events in Mexico, where it is roughly estimated that this country has \$100,000,000 invested. The explanation of the latest development current on the bourse is that the United States government has in mind the ultimate possibility of being required to protect the immense American interests in Mexico which might be imperiled in the event of the death of President Diaz by widespread disorders in that country.

REYES NOW LOOKING ON.

Former Minister of War Will Return to Mexico if Diaz Dies.

NEW YORK, March 9.—General Bernardo Reyes, former minister of war in the Diaz cabinet and now in Europe, is quoted in a dispatch from Rome to the effect that he is planning to return to Mexico in the event of Diaz's death. He would return and unite with his countrymen in restoring order. He was, he said, unalterably

opposed to intervention by the United States and was of the opinion that Mexico is strong enough to manage her own affairs.

He had received today a private cablegram, he said, to the effect that the president's illness was not serious, and he gave it as his opinion that Diaz will live several years, notwithstanding his advanced age.

At one time Reyes was regarded in Mexico as the logical successor of Diaz.

NOTIFIED TO BE READY.

Washington Militia May Receive a Call From the Government.

This action was taken following the receipt by the adjutant general's office of a telegram, presumably from Washington, the contents of which were not disclosed. The officers offered no explanation for the order issued to the men.

MILITIA MAY SEE SERVICE.

Adjutant General of California Asked Regarding State Troops.

SACRAMENTO, Cal., March 9.—Adjutant General A. E. Frazier of California, National Guard received a telegram from the war department tonight requesting him to report at once the number of men and officers available in the state militia. Details also were called for concerning the uniforms and equipment and the locations of the various companies. No intimation of the purpose of the department in demanding the information was given.

DIAZ SENDS TELEGRAM.

Claims That Order Will Soon Be Re-established in Mexico.

NEW YORK, March 9.—"The government is certain of re-establishing within a short time the order disturbed by scattered guerrillas," is the translation of a telegram in Spanish over the signature of Porfirio Diaz, which the World will print tomorrow. The telegram is dated today.

WOULD MAKE NO COMMENT.

Secretary of War Dickinson Not Informed of Movement.

ATLANTA, Ga., March 9.—Secretary of War Dickinson, when shown the report of President Diaz explaining the mobilization of troops in Texas and California, said he had received no official information from the minister and therefore would make no comment.

DIAZ IN GOOD HEALTH.

Latest Bulletin on Condition of the President of Mexico.

LAREDO, Tex., March 9.—Miguel Diebolt, Mexican consul in this city, has received the following telegram from Mexico City, dated today:

"President Diaz is enjoying the best of health. (Signed) 'ENRIQUE C. CREEL'."

to the door he jumped to the ground and sustained a severe sprained ankle.

In the suburb of Lake Forest, twenty-eight miles north of Chicago, George L. Robertson of the McCormick Theological seminary was delivering an illustrated lecture to the students. When the explosion came the students rushed from the darkened hall terror-stricken. Two women fainted in the crush, but were carried out.

In the town of Waukegan, audiences in three theaters fled, believing that an earthquake was at hand. A restaurant in which a number were dining was wrecked, the front falling into the street. The damage in Waukegan alone to windows and buildings was about \$100,000.

Succession of Explosions.

The flames from the explosion were plainly seen at Barrington, Ill., thirty miles south of Kenosha, and according to those who witnessed it, were about 100 feet high.

It was reported from Rockford, Ill., that the flash of the explosion was seen there.

The vibration was felt not only on the land but at the cribs, four miles out in the lake. It rocked the buildings and for a few seconds it was thought that the lookout tower on the Harrison crib would be thrown into the lake.

At Elgin, Ill., the death of Alice Finch, a dressmaker, was indirectly attributed to the explosion. She heard the report and fell the concussion and jumped to her feet screaming. She was told by a sister that it was an earthquake and fell to the floor, dying a short time later of heart disease superinduced by fright.

DISPUTE AS TO STATUS.

OF NEGRO FIREMEN

Strike on Cincinnati, New Orleans & Texas Railroad Ordered by Firemen's Union.

CINCINNATI, March 9.—White firemen of the Cincinnati, New Orleans & Texas railroad (Queen and Crescent route) struck tonight in response to an order from a committee of Locomotive Firemen and Engineers. The action was taken by the union after a long conference with C. C. Powell, vice president of the railroad, had failed to result in an agreement.

While the union officials were sending out the strike order Mr. Powell dictated a telegram to Washington in which he asked mediation of the federal authorities under the Erdman act.

The union officials said they would not join in a request for mediation, asserting that their experience had led them to believe that the men would lose rather than gain by such a course.

The strike is due to a dispute as to the status of negro firemen.

All trains leaving Cincinnati tonight were fully manned and there were few indications that a strike of firemen was in progress.

DEADLOCK SPECTACLE.

MOVES THEM TO ACTION

KALISPELL, Mont., March 9.—Resolutions have been adopted by the Young Men's Republican league of Flathead county to call upon Governor E. L. Norrie to convene an extra session of the legislature for the purpose of enacting primary legislation. The resolutions in part follow:

"Whereas, the protracted voting for United States senator at a recent session of the legislative assembly to the exclusion of other important matters, has given a disappointing result to the action of a primary election law, and

"Whereas, in view of the attitude of the parties in this case, it is deemed a serious question, but has become a party demand, and

"Whereas, we believe that the demand for such a law by the people and the benefits to accrue therefrom justify the calling of an extra session for the purpose of enacting such law."

BUSINESS PORTION OF.

RUTHERFORD, N. C. BURNED

RUTHERFORD, N. C., March 10.—Fire of unknown origin, which started at 10 o'clock last night in the heart of the business district, has destroyed a dozen mercantile establishments and at 1 o'clock this morning had been brought under control.

Field of U. S. Military Operations

TROOPS MOVING TO THE BORDER

Various Army Units Hurried to Destination With All Possible Dispatch.

MEDICAL SUPPLIES TO LAST SEVERAL MONTHS

Limited Number of Militia Officers Invited to Accompany the Regulars.

WASHINGTON, March 9.—The scene of activity in connection with the movement of troops to the Mexican border has shifted now to the long line which they will occupy, and official Washington has become merely a place for the receipt of reports showing the progress of the units toward their places of rendezvous.

The war department tonight made public the text of the telegram which was sent today to the adjutant general of the several states, inviting a "limited number" of militia officers to avail themselves of the opportunity afforded by the movement of troops to the border.

The dispatch sent by General Robert K. Evans, acting chief of the bureau of military affairs of the war department, follows:

"The adjutant general of all states and territories and the District of Columbia militia:

"In connection with the mobilization of federal troops for maneuver purposes, I am instructed by the secretary of war to inform you that the department desires to extend to a limited number of officers of the organized militia an opportunity to attend the maneuvers for purposes of observation and instruction."

"With this end in view, it is requested that you furnish this office at the earliest practicable date a list of names of officers of the militia who are of service and the probable time that he will be able to report and to remain at the encampment."

Pay the Same as Regulars.

"The department will consider this service as falling within the provisions of section 15 of the militia law and, therefore, the pay and transportation of such officers will be defrayed by regular army disbursing officers from the special appropriation for joint maneuvers."

"It is requested that, in presenting the names of these officers, you accompany the list with a statement of their rank and transportation to the nearest maneuver camp. Inasmuch as the accommodations are limited, it will probably be necessary to make selections from the lists presented. Information as to the officers selected by the department for this service and the places to which they will report will be furnished later, after the lists have been received and acted upon."

The extensiveness of the medical accompaniments to the army and navy in the movement of troops to the border is the significance of the operations.

The hospital ship Solace, equipped as a floating infirmary, will participate in the maneuvers. She will leave Guantanamo in a day or two for New York or Norfolk with eighty sick from the battleship fleet now in Cuban waters and then will be fitted out as a medical supply ship and sent to join the vessels of Admiral Stoughton's division of the Atlantic fleet, ordered to Guantanamo.

The medical staff of the Pacific and the Pacific side the Buffalo is receiving the medical supplies which are being collected from the barracks along that shore for transportation to San Diego, and Surgeon General Stokes has taken similar precautions for medical assistance to the marines on that vessel.

Proper Health Precautions.

Admiral Stokes is accepting this opportunity, it is said, to prove the efficiency of his machinery to carry out emergency orders. Extensive preparations are being made to care for the 20,000 soldiers being rushed to the frontier, which contains a reserve medical supply of 20,000 troops for three months, will be shipped from St. Louis to San Antonio tomorrow. Two base hospitals, which are the largest used by an army in the field, are being assembled at St. Louis, from which point they can be dispatched southward.

In addition to four field hospitals and four ambulance companies, the surgeon general is rushing to San Antonio and the Gulf of Mexico, a stock of 100,000 pounds of food, and a stock of 100,000 pounds of clothing.

Commissioner General Sharpe has issued orders to the chief commissaries and purchasing commissaries in the field to provide for the feeding of the troops.

WHY WOMEN SUFFER

WITH PILES AND HOW TO FIND A LASTING CURE.

Constipation is a most frequent cause of piles. That is why women suffer more often from piles than men. Indoor work and lack of exercise brings on the attack.

SCHRAMM-JOHNSON, DRUGS, FIVE STORES, and druggists everywhere, sell Hem-Roid, an internal tablet remedy for piles, on the understanding that you can have the money back if dissatisfied. \$1 for a large bottle. Dr. Leonard Co., Station B, Buffalo, N. Y., mail booklet on request.

JUDGE MACK ANNOUNCES POLICY OF NEW COURT

LOS ANGELES, Cal., March 9.—Whether the \$1 per hundred pounds rate established by the interstate commerce commission on California lemon shipments from California to the east is confiscatory is the question being considered by the new United States commerce court in Los Angeles today at the hearing being conducted by Judge Julian W. Mack.

Whether the rate is or is not confiscatory is the meat of the whole controversy, and whether a given rate is reasonable or not will not be considered by the court. Announcement to this effect was made today by Judge Mack.

This is important as showing the policy adopted by the new court which was created by congress a year ago to consider transportation litigation and has just been organized for its work.

Dr. Lyon's PERFECT TOOTH POWDER

cleanses, preserves and beautifies the teeth, prevents tooth decay and imparts purity and fragrance to the breath.

Fife Co. Shirts

Everything in Readiness at San Diego for the Soldiers.

SAN DIEGO, Cal., March 9.—The arrival of the armored cruisers California, South Dakota and Pennsylvania under Rear Admiral Thomas; the report of Lieutenant Commander Richardson that the torpedo flotilla is ready for sea; the reported arrival of 400 Mexican federal soldiers at Ensenada and the fact that an additional troop of cavalry from the department of California has been added to the troops at Fort Rosecrans and established General Tasker H. Bliss, marked the developments of the day in the army and navy movements at the western end of the Mexican border.

General Bliss arranged for the encampment of the Thirtieth and Eighth infantry regiments at Fort Rosecrans and established his headquarters at the old San Diego barracks, which have not been occupied since temporary use was made of them at the time of the Bennington explosion.

Lieutenant Paul W. Beck, signal corps, U. S. A.; Lieutenant G. E. M. Kelly of the Thirtieth infantry, and Lieutenant T. G. Ellison of the navy, who for several weeks have been instructed in aviation by Glenn H. Curtiss, have been ordered to remain on duty at the military aviation camp at Fort Rosecrans and that they can go into the field for aeroplane scout duty within three days.

MACHINE GUNS TAKEN ALONG.

First Detachment of the Eleventh Infantry Leaves Fort Russell.

CHEYENNE, Wyo., March 9.—Carrying a machine gun platoon and the wagon train of the Eleventh infantry, the first detachment of troops left Fort D. A. Russell at 2 o'clock this afternoon for San Antonio, Tex. The remainder of the regiment will leave some time tonight, while the engineer and hospital corps will get away Saturday.

Scenes similar to those witnessed at the opening of the Spanish-American war marked the soldiers' farewells to their families. Orders were received from Washington today for a report on the amount of shrapnel and shell ammunition on hand at the fort.

BLANKETS FOR SOLDIERS.

Fifteen Thousand Sent to the Front from St. Louis Depot.

ST. LOUIS, Mo., March 9.—Orders were received today at the United States commissary department here for the immediate shipment of 15,000 blankets to Texas. Captain W. H. Wilson, assistant depot quartermaster, said the stock of blankets in the depot will supply an army of 100,000.

Six carloads of provisions were also ordered to Texas.

CRUISERS WEIGH ANCHOR.

Tennessee, Montana and North Carolina Steaming Toward Mexico.

NEW YORK, March 9.—Three big armored cruisers, which for the last three days have been loading coal, stores and ammunition for a hurried movement to the Gulf of Mexico, weighed anchor at the naval station off Tompkinsville, Staten Island, shortly after 4 o'clock this afternoon, and steamed out through the Narrows.

The Tennessee, flagship of Rear-Admiral Stoughton, commander of the fifth division of the Atlantic fleet, led the way, followed by the Montana and North Carolina. All are sister ships of 14,500 tons, each with twenty big guns. The vessels are bound first for the United States naval base at Guantanamo, Cuba. It is expected the cruiser Washington, another member of the fifth division, which is at Portsmouth navy yard, will join the fleet later.

TWO SOLDIERS REPORTED KILLED IN TRAIN WRECK

DENVER, Tex., March 9.—One car of horses is known to have been destroyed and two soldiers are reported to have been killed as a result of a fire which originated in a stock car of a troop train on the Missouri, Kansas and Texas railroad near Durant, Oklahoma, tonight.

The train was the first section of an army special en route from Fort Leavenworth to San Antonio. The train resumed its journey and is due in Denison shortly after midnight.

BRYAN ADDRESSES THE BAY STATE LEGISLATURE

BOSTON, March 9.—William J. Bryan today addressed the two branches of the legislature after he had lunched with Governor Foss and nearly a hundred of the Democratic leaders in this state.

QUESTION OF INTENT CUTS FIGURE IN TRIAL

Case of Clarence D. Hillman, Millionaire Promoter, in the Hands of the Jury.

SEATTLE, Wash., March 9.—The case of Clarence D. Hillman, the millionaire townsite promoter on trial in the federal court, charged with using the mails to defraud, was given to the jury late today. There are twenty-seven counts in the six indictments to be considered by the jury.

The guilt or innocence of Hillman, according to the court's charge, rests entirely on the question of intent. Judge Donworth said that the government must prove that Hillman concocted a scheme with the intent to defraud, that the scheme involved the use of the mails and that Hillman placed or caused to be placed in the mails matter designed to further such scheme.

The question of intent has been the bone of contention through the trial. Hillman insisting that he made all his representations in good faith and the government must prove that he had formed an elaborate scheme to defraud purchasers.

Westergaard Wins.

LINCOLN, Neb., March 9.—Jesse Westergaard won a wrestling match with John Lemm tonight in the federal court, charged with using the mails to defraud, was given to the jury late today. There are twenty-seven counts in the six indictments to be considered by the jury.

Assist Nature.

You have been told to "hitch your wagon to a star"—that nature will assist you. That's all right. There are times, however, when you should assist nature, and the spring is one of these times.

Nature is now undertaking to cleanse your system—if you take Hood's Sarsaparilla the undertaking will be successful, and your complexion bright and clear.

DYNAMITE WRECKS TOWN IN WISCONSIN

Pleasant Prairie a Mass of Ruins; Force of Explosion Felt 100 Miles Away.

Continued From Page One.

Of the cause of the accident, we know nothing at present.

The glare from the explosion at Pleasant Prairie was seen in all the northern and western suburbs of Chicago. The vibration was felt from end to end of the city and the force of the concussion came with a roar like that of a heavy wind.

Windows were broken by the thousands all through the suburbs north of Chicago and in the business section.

Effect Felt Miles Away.

The vibration rocked the heaviest granite buildings and threw hundreds of guests in the leading hotels into panic. The shock was felt in Chicago at exactly 8:22 o'clock. At 8:24 the general fire alarm received word from Logan Square boulevard and Milwaukee avenue, five miles away, that an explosion had occurred at the spot. Within the next five minutes sixty-two separate alarms were received, the sender in each instance claiming that an explosion had occurred in his immediate neighborhood.

In the new city hall building, which is an enormous granite structure, the force of the vibration was so great that plaster fell from the walls in many places and several of the windows were shattered.

Panics occurred in several vaudeville theaters and a number of persons were slightly injured.

Excitement prevailed at all the prominent hotels along the lake front, guests running from their rooms and filling the lobbies, many of them carrying suitcases and valises. At the Auditorium, windows were blown in and front doors were dashed open. For some time it was found difficult to convince the guests that an earthquake had not taken place.

In the same block with the Auditorium hotel is the Studebaker theater and the audience there became excited and some left their seats.

Manager George Davis rushed upon the stage and by repeatedly shouting that there was no danger finally quieted the nervous ones.

Flames Seen Long Distance.

The force of the explosion was so terrific that its effects were distinctly felt at Lemont, Ill., which is thirty-seven miles from Pleasant Prairie, and at Michigan City, which is 107 miles from the scene of the explosion. In Lemont many windows were broken and State Senator P. J. Carroll, who was on a street car, was startled by the breaking of several windows in the car. Rushing
